Reviews

I just started out reading this ebook. It is rally exciting throgh reading through time. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Leonie Collins)

PERSPECTIVE FOR INTERIOR DESIGN

[DOWNLOAD](#)

Watson-Guptill Publications. Paperback. Book Condition: new. BRAND NEW, Perspective for Interior Design, John Pile, The author provides the means by which students and interior designers can learn to draw interior perspectives through the use of a basic formula. He offers an easily accessible and quickly learned method that will serve every interior designer's drawing needs. All that is required is familiarity with plan, section, and elevation drawings and the basic skills of using drafting tools. Beginning with a section on the fundamental technique of two-point perspective, which is presented through 14 sequential steps, Pile moves on to cover special situations (including one-point perspective, circular forms, reflective images, views from above, light effects and furniture); freehand perspective; camera techniques; case studies of 8 typical spaces, which are illustrated by 5 well-known designers; analysis of finished perspectives; and a review of computer-aided techniques. Step-by-step demonstrations, analysis of constructed layouts, and illustrations of completed works make this volume a complete and accurate guidebook.
