The plan of this Introductory is similar to that which has met wide approval in the author s Elementary, or Brief Course; that is, it combines reading-lessons (to enliven and stimulate) with recitation-lessons (to emphasize and fasten). By its moderate size, simple style, and close relation of matter read to matter recited, it is suited to the capacity of beginners, while the text is so graded that the Introductory connects with the Grammar School Geography without the need of any intermediate manual.
