Congress asked GAO to testify on the status of the National Aeronautics and Space Administrations (NASA) financial management reform efforts. NASA faces major financial management challenges that, if not addressed, will weaken its ability to manage its highly complex programs. NASA has been on GAO's high-risk list since 1990 because of its failure to effectively oversee its contracts, due in part to the agency's lack of accurate and reliable information on contract spending. GAO's statement focuses on (1) NASA's key financial management challenges, (2) how NASA's financial management challenges compare with other federal agencies, (3) GAO's assessment of NASA's progress toward implementing recommendations aimed at improving its financial management system, and (4) the steps NASA must take to reform its financial management organization. In its related report, released today, GAO recommends that NASA develop an integrated enterprise master schedule and milestones--including improvement activities and plans, dates for completion, performance measures, and clear accountability. This item ships from La Vergne, TN. Paperback.
