It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

GAO reviewed an independent certified public accountants audits of the fiscal year 1983 financial statements of the National Credit Union Administrations Operating and Share Insurance Funds to determine the extent to which they could be relied on. In the auditors opinion, the Operating Funds and, except for two departures from generally accepted accounting principles, the Share Insurance Funds financial statements presented fairly their financial positions on September 30, 1983, and the results of their operations for the year then ended in conformance with generally accepted accounting principles applied on a consistent basis. GAO found that, except for not mentioning the absence of a statement of changes in the financial position of the Share Insurance Fund, the audits were conducted in accordance with generally accepted auditing standards. While the auditors did not prepare reports on internal accounting controls and compliance with laws and regulations, they found no material internal control weaknesses or noncompliance with laws and regulations.
